

myReads® Service Packages Overview

Flexible, customizable options for different sample and project types

Whole genome sequencing (WGS)

Genome size and application appropriate tiers for short-read per-Gbp sequencing

Custom panels

(myBaits kit not included)

Standard DNA

Degraded DNA

Ancient DNA

Long-insert DNA

Standard RNA

Service packages include:

- QC + complimentary report
 - Library preparation
- myBaits Capture (except WGS)
 - Sequencing

Community panels

Base package – DNA

Base package – RNA

Expert panels

Ultraconserved elements

Angiosperms-353

Wheat exome & promoters

Respiratory virus

16S-Hyb
